

Kodak Alaris Picture Saver Scanning Systems from *Brooke International*

Shoebox Scanning has never been so easy AND efficient!
Introducing the PS50 and PS80 Scanners—Now with your choice
of PC or Mac software.¹

Open the Window to Higher Speed Photo Scanning!

- Front side camera is open so dust streaks, constant monitoring and rescanning is virtually eliminated
- Scan faster than ever at 300 & 600dpi—up to 85 photos per minute @ 300dpi - 22 @ 600 dpi
- More gentle roller transport handling of photos • One-up image viewing during scanning
- Higher capacity photo feeder • Interrupt & resume or add photos to finished orders
- Scan documents into pdf, tif, bmp and more formats

Photo Selector Tool for A3 12x18 & Legal flatbed accessories to use with the PS50 and PS80 Scanners

- Convert photo albums & scrapbooks to individual images without dismantling the original pages—so simple—just click a button! No marquee selection needed
- Software accessory that *allows you to scan pages from your photo albums or scrapbooks with removing the photos from the page or removing the page protector*
- Ability to crop batch & flatbed scanned images within the Kodak software
