

How can you grow your archiving business with Kodak exiting the new shoebox photo scanner business?

You are still in the game. You are champions helping your clients preserve their most precious memories. Check out these tools that up-level your scanning options for your clients.

A3 12x18 & Legal Flatbeds with Photo Selector Tool to use with the PS50/PS80 Scanners

- **FLATBED SCANS PLUS** - Software accessory that allows you to scan pages from photo albums, scrapbooks without removing the photos from the page or the page protector.
- **INCREASE SCAN-TO-PRINT Business** - Convert photo albums & scrapbooks to individual images without dismantling the original pages—so simple—just click a button! No marquee selection needed.
- **SIMPLIFY WORKFLOW** - Ability to crop batch & flatbed scanned images within the Kodak software easily keeping images in order.
